

201404128 5575 Glenridge Connector

DEPARTMENT OF COMMUNITY DEVELOPMENT RECOMMENDATION

APPROVAL CONDITIONAL

Discussion:

The applicant is seeking to rezone the subject properties from O-I (Office and Institutional District) to C-1 (Community Business District) to construct a 10,000 square foot restaurant.

Additionally, the applicant is requesting two (2) concurrent variances from the Zoning Ordinance as follows:

1. Variance from 4.23.1 to delete the ten (10) foot landscape requirement along the interior property lines.
2. Variance from 18.2.1 to delete the off-street parking requirements.

PLANNING COMMISSION RECOMMENDATION- January 15, 2015

201404130- 30 Day Deferral

PROPERTY INFORMATION

Address, Land Lot, and District	5575 Glenridge Connector Land Lot 38, District 17
Council District	5 (Tiberio "Tibby" DeJulio)
Frontage	142 feet of frontage along the east side of Glenridge Connector and 140feet along the south side of Johnson Ferry Road
Area	0.295 Acres (12,870 square feet)
Existing Zoning and Use	O-I (Office and Institutional District), currently undeveloped
Overlay District	Perimeter Center Improvement District (PCID)
2027 Comprehensive Future Land Use Map Designation	LWC (Live Work Community)
Proposed Zoning	C-1 (Community Business District)

Per Article 28.4.1, *Zoning Impact Analysis by the Planning Commission and the Department*, the staff shall make a written record of its investigation and recommendation on each rezoning petition with respect to the following factors:

A. *Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.*

Findings: The staff is of the opinion that the proposed use is suitable in view of the use and development of adjacent and nearby property. The surrounding area consists of similar uses. The area consists of O-I (Commercial District) and MIX (Mixed Use District) to the north; O-I (Office and Institutional District) to the east; O-I (Office and Institutional District) to the south; and O-I (Office and Institutional District) and R-3 (Single Family Dwelling District) to the west.

B. *Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property.*

Findings: The staff is of the opinion that the proposal if approved would not have an adverse impact on the use or usability of adjacent or nearby properties. The use is consistent with adjacent properties. The proposed density is well under the minimum that the Comprehensive Plan recommends for the Live Work Community future land use and introduces a use not widely seen on adjacent properties. The applicant is proposing 806.45 square feet per acre where 25,000 square feet per acre of commercial is recommended. While this is significantly less than the recommended density, this use itself lies on .295 acres of the overall 12.4 acres.

C. *Whether the property to be affected by the zoning proposal may have reasonable economic use as currently zoned.*

Findings: The staff is of the opinion that the subject property has a reasonable economic use as currently zoned.

D. *Whether the zoning proposal will result in a use which will or could cause an excessive burdensome use of existing streets, transportation facilities, utilities, or schools.*

Findings: The staff is of the opinion that the proposal would not result in a use which will cause an excessive or burdensome use of the existing infrastructure. A restaurant at this location would serve existing office buildings as well as the general public off-hours, a use not prevalent in the area.

E. *Whether the zoning proposal is in conformity with the policies and intent of the land use plan.*

Findings: The staff is of the opinion that the proposal is consistent with the policies and intent of the Land Use Plan.

Existing Development	Entitlement	Proposed	Comprehensive Plan
Office – 59,370.96 sf/ac Commercial- None Height- 19 Stories	Office – 68,483.87 sf/ac Commercial- None Height – 6 Stories	Office - None sf/ac Commercial- 806.45 sf/ac Height- 2 Stories	Office – 25,000 sf/ac Commercial -25,000 sf/ac Height- 4 Stories LWC (Node 6)

F. *Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.*

Findings: The staff is of the opinion that there are no existing or changing conditions affecting the use and development of the property, which give supporting grounds for approval or denial of the applicant's proposal.

G. *Whether the zoning proposal will permit a use which can be considered environmentally adverse to the natural resources, environment and citizens of Sandy Springs.*

Findings: The staff is of the opinion that the proposal would not permit a use which could be considered environmentally adverse to the natural resources, environment, or citizens of Sandy Springs. The proposal will be required to meet all current City Codes.

VARIANCE CONSIDERATIONS

Article 22 of the Zoning Ordinance indicates the following are considerations in granting variances, of which only one has to be proven:

1. *Relief, if granted, would be in harmony with, or, could be made to be in harmony with, the general purpose and intent of the Zoning Ordinance; or,*
2. *The application of the particular provision of the Zoning Ordinance to a particular piece of property, due to extraordinary and exceptional conditions pertaining to that property because of its size, shape, or topography, would create an unnecessary hardship for the owner while causing no detriment to the public; or*

The applicant is requesting two (2) concurrent variances as outlined below. The applicant has indicated that the variances being requested will be in harmony with the policy and intent of the Zoning Ordinance and will not result in any harm to the health, safety and welfare of the general.

1. Variance from 4.23.1 to delete the ten (10) foot landscape requirement along the interior property lines.

Findings:
Staff is of the opinion that the request to delete the ten (10) foot landscape requirement along the interior property lines would be in harmony with the intent of the Zoning Ordinance. The applicant will be required to meet streetscape standards for the Perimeter Community Improvement District (PCID) on the exterior property lines. Therefore, based on these reasons, the staff recommends APPROVAL of this variance request.

2. Variance from 18.2.1 to delete the off-street parking requirements.

Findings:
Staff is of the opinion that the request to delete the off-street parking requirements is in harmony with intent of the Zoning Ordinance. The site has significant amounts available parking with the existing parking garage and a proposed parking garage which will abut this structure and deleting this requirement would allow for shared parking between uses. Both existing and proposed parking garages would provide adequate parking during off-business hours when a majority of spaces utilized for the office buildings onsite will be vacant. Therefore, based on these reasons, the staff recommends APPROVAL of this variance request.

DEPARTMENT COMMENTS

The staff held a Focus Meeting with Transportation, Building and Permitting, Fire, Code Enforcement, Site Development, and the Arborist on December 3, 2014 at which the following departments had comments. The staff has received additional comments from the Fulton County Board of Education and Fulton County Department of Water Resources (see attachments).

Transportation Planner	<p>Background Information</p> <ul style="list-style-type: none">- Glenridge Connector is classified a Minor Arterial Street with a posted speed of 45mph and average daily traffic of 23,400 (GDOT, 2013).- Johnson Ferry Road is classified a Minor Arterial Street with a posted speed of 35mph and average daily traffic of 21,520 (GDOT, 2013). <p>Overlay District Requirements</p> <ul style="list-style-type: none">- The Perimeter Community Improvement Overlay District streetscape is required for both street frontages (Zoning Ordinance, Article 12). The recommended cross-section is Thoroughfare, which includes, but is not limited to 8 to 10 foot sidewalks, bicycle lanes, landscape strip, street and pedestrian lighting, decorative pavers, and street furniture. Intersections shall be upgraded with pedestrian plazas. Refer to Perimeter Community Improvement Public Space Standards: www.perimetcid.org/factsheets/PCID-Public-Space-Standards-Update-Draft.pdf <p>Planned Projects from Adopted Plans</p> <p>Bicycle, Pedestrian and Trail Plan</p> <ul style="list-style-type: none">- B49: Glenridge Connector Cycle Track with Road diet from Johnson Ferry Road to Peachtree Dunwoody Road.- PCID A29, S06: Johnson Ferry Road Sidepath and sidewalk from Glenridge Drive to Peachtree Dunwoody Road <p>Perimeter at the Center Livable Centers Initiative (LCI)</p> <ul style="list-style-type: none">- T-4: Multi-Modal Improvements to Johnson Ferry Road between Glenridge Connector and Old Johnson Ferry Road- T-5: Multi-Modal Improvements along Glenridge Connector /Glenridge Drive between Hammond Drive and Peachtree Dunwoody Road- T-17: Access and Wayfinding Enhancements and Bike/Ped Connections in Proximity to Medical Center Station <p>Recommended Conditions</p> <ul style="list-style-type: none">- Only one entrance will be permitted on the Glenridge Connector at the existing signalized access location, and no access shall be permitted from Johnson Ferry Road (reference Fulton County Zoning Resolution 2001Z-0069).- Dedication of the following right-of-way: Johnson Ferry Road, 45 feet from centerline, 11 feet behind back of curb, or 1 foot from back of sidewalk or proposed separated bicycle and pedestrian facility, whichever is greater; Glenridge Connector, 55 feet from centerline, 11 feet behind back of curb, or 1 foot from back of sidewalk or proposed separated bicycle and pedestrian facility, whichever is greater.
-----------------------------------	---

	<ul style="list-style-type: none">- Bicycle parking of 1 space per 20 vehicle spaces. <p>At the time of permitting, the site shall meet requirements of Articles 11 and 12 of the Development Ordinance. Based on a review of the zoning site plan, please note the following:</p> <ul style="list-style-type: none">- Proposed access shall meet uninterrupted ingress/egress requirements. Proposed access shall meet minimum separation and spacing and be designed to avoid off-set conflicts. The minimum spacing is 300 feet for Johnson Ferry Road and Glenridge Connector. Only one driveway is permitted per each full 200 feet of property frontage. §103-73- All access points shall meet minimum sight distance. §103-77- An ADA accessible path is required from sidewalk to front entrance of restaurant.- All signs shall set back at least ten (10) from the right-of-way or twenty (20) feet from the edge of pavement (Zoning Ordinance, Article 33, Section 22).

PUBLIC INVOLVEMENT

Public Comments

- Traffic
- Commercial uses at night

CONCLUSION TO FINDINGS

The Comprehensive Plan clearly supports a variety of uses in the Live Work Community district. The Plan notes that the designation of areas in the Living Working Category was done to encourage a mix of uses. It is the opinion of the staff that the proposal is in conformity with the intent of the Comprehensive Plan Policies. The proposed density is within the range suggested by the Future Land Use Map. Therefore, based on these reasons, the staff recommends **APPROVAL CONDITIONAL** of the rezoning petition and the associated concurrent variances.

STAFF RECOMMENDED CONDITIONS

Should the Mayor and City Council decide to rezone the subject property from O-I (Office and Institutional District) to C-1 (Community Business District), the staff recommends the approval be subject to the following conditions. The applicant's agreement to these conditions would not change staff recommendations. These conditions shall prevail unless otherwise stipulated by the Mayor and City Council.

1. To the owner's agreement to restrict the use of the subject property as follows:
 - a. Commercial uses at 10,000 square feet.
2. To the owners agreement to abide by the following:
 - a. To the site plan received by the Department of Community Development dated February 3, 2015. Said site plan is conceptual only and must meet or exceed the requirements of the Zoning Ordinance and these conditions prior to the approval of a Land Disturbance Permit. The applicant shall be required to complete the concept review procedure prior to application for a Land Disturbance

Permit. Unless otherwise noted herein, compliance with all conditions shall be in place prior to the issuance of a Certificate of Occupancy.

3. To the owner's agreement to provide the following site development standards:

- a. Streetscape shall meet or exceed Perimeter Community Improvement District (PCID) standards.

**LETTER OF INTENT FOR
REZONING, USE PERMIT, AND CONCURRENT VARIANCE APPLICATIONS
CITY OF SANDY SPRINGS, GEORGIA**

20140428
RECEIVED
NOV 10 2014
City of Sandy Springs
Community Development

The Applicant, Glenridge Highlands III, LLC, (the “Applicant”), requests the rezoning of approximately 12.14 acres bounded by Johnson Ferry Road NE, Glenridge Connector NE, Glenridge Point Parkway, and GA-400; Fulton County Tax Parcel Identification Numbers 17-0038-LL1405, 17-0038-LL1413, and 17-0038-LL1397 (collectively, the “Glenridge Highlands Property”). Though the Glenridge Highlands Property is comprised of three separate tax parcels (Glenridge Highlands One, Glenridge Highlands Two, and Glenridge Highlands Three), Zoning Case 2001Z-0069 regulates the entire Glenridge Highlands Property. Two of the parcels, Glenridge Highlands One and Glenridge Highlands Two are developed with office buildings and parking decks. The Applicant is proposing to develop the third parcel (“Glenridge Highlands Three”) for an office building, parking deck, and restaurant.

To allow the proposed development, the Applicant seeks to rezone the Glenridge Highlands Property from its current O-I Conditional classification to the O-I Conditional and C-1 Conditional classifications. The proposed C-1 rezoning would only apply to approximately 0.295 acres of land abutting the southeastern corner of the intersection of Johnson Ferry Road NE and the Glenridge Connector (the “C-1 Parcel”) to allow for construction of a 10,000 square foot restaurant. The O-I Conditional rezoning would apply to the balance of the property and allow the Applicant to develop an office building on the remainder of Glenridge Highlands Three at a higher density and height than currently allowed under the Glenridge Highlands Property’s current conditions of zoning approved by Fulton County in 2002 (see Fulton County Zoning Case 2001Z-0069).

The Glenridge Highlands Property was zoned to the O-I Conditional classification in 1994 to accommodate a three-building office park. Since 1994, two of the three buildings (Glenridge Highlands One and Glenridge Highlands Two) have been constructed at a total density of 736,200 square feet. At one point the zoning was modified to allow the addition of a 15-story hotel on Glenridge Highlands Three, however in 2002 the zoning was changed back to allow a 6-story, 113,000 square foot office building in lieu of the 15-story hotel. The low density

allocated to Glenridge Highlands Three has contributed to the parcel's remaining undeveloped since 2002.

The Applicant's current proposal seeks approval to build a 12-story, 299,999 square foot office building, thereby increasing the office density allocated to the site by 186,999 square feet. Parking would be accommodated by 321 parking spaces below the proposed office building and 790 parking spaces in an accessory parking deck. The Applicant is also proposing to increase the height of the office building from 6 to 12 stories and modify access to the site as shown on the site plan filed with the Application.

The Applicant further proposes to construct a 10,000 square foot restaurant. The restaurant would require a rezoning of 0.295 acres in the northwestern corner of the Property to the C-1 classification to allow for the restaurant to stand alone as a development/community amenity separate from the proposed office building. Parking for the restaurant would be accommodated in either the existing Glenridge Highlands Two parking deck or the proposed Glenridge Highlands Three parking deck. A limited number of proposed surface parking spaces abutting the northern side of the existing Glenridge Highlands Two parking deck would also serve the restaurant.

The proposed rezoning is compatible with nearby land uses. Nearby or adjacent land uses include transportation infrastructure, office, retail, and medium-density single family residential. To the east of the Glenridge Highlands Property lies a three-story office building and GA-400. The on-ramp to GA 400 from the Glenridge Connector consumes the land to the south of the Glenridge Highlands Property. The area to the west, across the Glenridge Connector, is developed with single family residential uses and an office building. No direct access is available to the residential area from the Glenridge Connector. To the north, across Johnson Ferry Road, are low- to medium- density office and retail uses. Thus the proposed office building, parking deck, and restaurant are compatible with the mix of uses that exist in this area primarily utilized for office uses.

The rezoning proposal is consistent with the intent of the City of Sandy Springs Comprehensive Plan. The Property is located in an "Employment" character area on the City of Sandy Springs Character Area Map. Employment character areas are defined by multi-story employment facilities with limited commercial. The proposed 12-story office building adjacent to a restaurant is consistent with this definition. Additionally, the Property is located in a "Living-

Working Community” area of the City of Sandy Springs Future Land Use Map. Living-Working Community areas are envisioned to provide a “medium intensity/density” mix of uses to serve adjacent neighborhoods. Though the proposed density is greater than the office densities suggested in the land use plan, the increased intensity is appropriate in this area which serves as a regional employment center due to its proximity to the GA-400 and I-285 interchange.

In addition to the requested rezoning, the Applicant has concurrently applied for a Use Permit and five Concurrent Variances. The Use Permit is required in order to allow an increase in the proposed heights of the office building and parking deck in the O-I district. The O-I building height restriction, contained in § 8.1.3.A, is “sixty (60) feet or four (4) stories, whichever is higher.” The proposed height of the office building is 12 stories and the height of the associated parking deck is seven (7) stories. Due to the existence of an even taller adjacent office building of 19 stories, exceeding the height limit at this location would not cast new shadows on most nearby properties, inhibit existing sight lines from nearby residential areas, or otherwise have a negative impact on the surrounding area. Please see the Use Permit Consideration Form included in this Application for specific responses to the Use Permit criteria.

The Concurrent Variances would provide relief from landscape area and building setback requirements applicable to Glenridge Highlands Three and landscape area and parking requirements applicable to the C-1 Parcel. The Applicant requests Variance One to eliminate the twenty (20) foot setback required by § 8.1.3.C in side yards in O-I districts. The proposed location of the office parking deck is immediately adjacent to the restaurant to create a seamless structure and view from the street. Removal of the setback requirement would allow the proposed parking deck to be constructed immediately adjacent to the south of the restaurant.

Variance Two is requested to eliminate the ten (10) foot landscape area required by Table 4.23.1 on interior boundaries of O-I districts. The proposed parking structure in the O-I district would directly abut the restaurant in the C-1 district to align with the existing neighboring parking garage and allow room for a new access drive to the site.

Variance Three is requested to eliminate the twenty-five (25) foot setback required by § 8.1.3.D in rear yards in O-I districts. The proposed location of the office parking deck is immediately adjacent to the existing parking deck on Glenridge Highlands Two. Removal of the setback requirement would allow for this orientation, which makes efficient use of the space and

allows the proposed parking deck to be located outside of the landscape area and front setback required along the Glenridge Connector.

Variance Four is requested to eliminate the ten (10) foot landscape area required by Table 4.23.1 along interior boundaries of C-1 districts. The small size of the C-1 Parcel does not allow sufficient room for a landscape buffer between the restaurant and the proposed parking garage on Glenridge Highlands Three.

Variance Five is requested to eliminate the minimum parking required by § 18.2.1 for restaurant uses. The small size of the C-1 Parcel does not allow for onsite parking. Parking is proposed to be provided in either the existing Glenridge Highlands Two parking deck or the proposed Glenridge Highlands Three parking deck. The Applicant or its affiliates currently own both Glenridge Highland Two and Glenridge Highland Three and will provide the appropriate access and parking easements for the development. Seventeen (17) surface parking spaces are also proposed to be constructed adjacent to the Glenridge Highlands Two parking deck located to the east. All proposed parking would be within easy walking distance of the restaurant entrance.

Variance Six is requested to allow surface parking within the side corner setback, which is prohibited by § 18.3.1.E. The small size of the C-1 Parcel does not allow for onsite parking. To provide convenient parking for restaurant patrons, seventeen (17) parking spaces are proposed along Johnson Ferry Road adjacent to the existing Glenridge Highlands Two parking deck. All or a portion of approximately nine (9) of the proposed spaces is located within the forty (40) foot side corner setback required in O-I districts.

The Applicant intends to seek an Administrative Use Permit to allow restaurant parking to be accommodated off-site. Off-site parking would be provided in either the existing Glenridge Highlands Two parking deck or the proposed Glenridge Highlands Three parking deck. Granting this Administrative Permit would make efficient use of existing or proposed parking facilities.

The proposed development is compatible with surrounding uses and consistent with the intent of the Comprehensive Plan. Further, it would provide Class-A office space in a submarket experiencing growing demand and a restaurant that would be a new amenity to the community.

Accordingly, the Applicant respectfully requests that the Mayor and City Council of the City of Sandy Springs grant the rezoning, Use Permit, and Concurrent Variances as requested.

For Applications for Rezoning,)
Case Numbers 201404128 and 201404130.)

COMES NOW the Applicant, Glenridge Highlands III, LLC, and respectfully requests that the above-referenced Applications be amended as follows:

1.

By incorporating the attached “Variance Summary,” which contains a larger and easier-to-read version of the variance information contained in the Site Plan that was originally submitted with the Application; and

2.

By incorporating the attached visual aids, which were shown during the Applicant’s presentation to the Planning Commission at the January 15, 2015 meeting (note that the slide entitled “Aerial View” has been modified since the Planning Commission meeting to show the proposed right in, right out driveway and the existing driveway to Glenridge Connector); and

WHEREFORE, the Applicant respectfully requests that this First Amendment be filed; that the Application be amended in accordance with this First Amendment; and that the Applicant have such other and further relief as is just and proper under the circumstances.

Accordingly, the Applicant respectfully requests that the City Council of Sandy Springs grant the Applications as requested.

Subject: Water Availability for 5575 Glenridge Connector, Sandy Springs, Ga.

Dear Linda Abaray,

Our records indicate that there is not an existing water main located on the Glenridge Connector between Meridian Mark Dr. and Georgia 400 north bound off ramp.

To integrate into Atlanta Water System or rearrange water facilities, the developer must submit the following to the City of Atlanta-Bureau of Engineering Services:

1. A set of stamped engineering drawings showing their developmental objectives for review and approval.
2. The enclosed basis of design form to include all applicable information, with a copy of a City of Atlanta fire hydrant flow test. Contact the Bureau of Engineering Services office of Meter Application at 404-330-6091 for payment and scheduling for the flow test.
3. A two thousand dollar deposit (\$2000.00). Check must be payable to City of Atlanta.

Once the plans have been approved, the developer will then receive additional instructions regarding the process and procedures from the Bureau of Engineering Services.

Should additional information be needed, please contact Jarrell Thornton at 404-546-3249.

Sincerely,

Jarrell Thornton
